Thank you:

I have to send a HUGE shout out to my wife and kids! They have been super supportive during the making of this album. Thank you also to my creative and brand director, Sarah Martinico of SL Music Consulting, for her vision, patience and amazing execution! Thank you also to Donnell Spencer Jr. for his musical work and photography! There are so many to thank! My sincere apologies to anyone I missed! I hope you all will enjoy this project as much as I did recording it! God Bless!
